PLANNING & REGENERATION

3D Model Import Form
VU.CITY

Please fill in this form with the relevant data regarding your model and submit to your case officer alongside the .fbx file

If you have any issues regarding import or using the model please contact the VU.CITY technical support team on 0808 168 3931 or support@vu.city

Information to be submitted with an FBX file
In order to successfully upload a model into Dacorum's digital planning platform the information below will need to be provided. Please complete this form and submit to the case officer with your geo-located / zeroed FBX file

The model must be submitted as below:
- Be below 128MB
- Be geo-located in OS space in metres (m) units
- Have a low polycount (recommended less than 65,000 vertices)
- Be saved / exported in FBX file format
- Named with your application reference number and any revisions clearly labelled in the following format 00-00000-MFA-REVA
- Submitted attached with model import form

File origin:	Mark as appropriate
Project Name / Address	
Application Number	
File Name	00-00000-MFA-REVA
Revision	A / B / C / D
Date	

Is the supplied model geo-located or zeroed?

File origin:	Mark as appropriate
Geolocated	Yes/No
Zeroed	Yes/No
Non-geolocated Coordinates:	
Eastings	
Northings	
Height AOD	

Please state the origin software of your 3D model?

File origin:	Mark as appropriate
AudioCAD	Yes/No
Revit	Yes/No
Rhino	Yes/No
SketchUp	Yes/No
3ds Max	Yes/No
Other	Please state alternative software used
