Appendix 12 Synopsis of the Box Moor Trust

The Box Moor Trust is an independent and self-financing charity with its own Board of 12 Trustees, all of whom live locally.

In 1594, John Rolfe and Richard Pope conveyed land in Boxmoor and Hemel Hempstead to Francis Coombes, Seth Gladman and other named inhabitants, to be held in trust for the people of the town and the neighbouring hamlet of Bovingdon. One of its purposes now is to maintain the natural habitat of the Bulbourne Valley as it meanders towards Two Waters. Recently, the Estate has been extended by the acquisition of the freehold of Westbrook Hay Estate

The Nearly 500 acres of Trust land have many interesting and varied natural resources, including chalkland grass, woodland, water meadows, old pastures and rivers, all providing the much needed wildlife habitats. This land is held in common ownership and provides the opportunity for the local inhabitants to maintain their awareness of the value of such land within an urban area.

Appendix 14 Summary of consultation responses

Summary of Comments	Respondent Name/No.	Our Response
<p>(i) Need to recognise Northchurch and Berkhamsted as two distinct settlements.</p> <p>(ii) The size of the burial ground at Bell Lane is incorrect.</p>	<p>Cllr Alan Fantham Northchurch Parish Council</p>	<p>We have included a breakdown of open space for Northchurch. Please see appendix 15.</p> <p>We have amended Appendix 4 (and relevant tables) to reflect the correct size of the church grounds at Bell Lane. The site was recorded as being 0.266ha when it is in fact 0.053ha.</p>
<p>(i) Indicate that the Parochial Church Council believes that Three Close Lane Churchyard could be recognised as amenity open space. They (the PPC) would welcome the opportunity to discuss the option further.</p>	<p>Parochial Church of Great Berkhamsted</p>	<p>We acknowledge this interest and look forward to discussing the matter further.</p>
<p>(i) Indicate that Berkhamsted has the largest shortfall of green/open space in the Borough. As a result existing open space needs to be protected and more needs to be provided.</p> <p>(ii) Raise concerns regarding the extent of infill development in the town.</p>	<p>Colin Westwood Berkhamsted Town Council</p>	<p>The report acknowledges that Berkhamsted has the largest shortfall of leisure space (p28) and that more formal leisure space is required (p31). The report states that existing open space should not be considered for development due to the current deficiency in Berkhamsted.</p> <p>We are actively seeking the creation of 3.9ha of new leisure space for pitches and informal amenity purposes through the Local Plan Proposal Sites H37/L1/C1 at Durrants Lane. The report also indicates potential additions to designated Open Land (p69).</p> <p>We acknowledge the concerns raised regarding infill development. However, the typologies outlined in PPG17 do not include 'private gardens'. It is therefore outside of the scope of the study.</p>

Summary of Comments	Respondent Name/No.	Our Response
<p>(i) Accept the findings of the report.</p> <p>(ii) Raised concerns over the relationship of the document with the proposed development at Manor Farm. The document infers that the development is a foregone conclusion.</p>	<p>Markyate Parish Council</p>	<p>Manor farm is an adopted Local Plan Proposal (Site H44) and has is considered to be an acceptable location for development. We are currently working with the development brief to consider a range of concerns including open space and providing affordable housing on site.</p>
<p>(i) Consider it a robust document, based upon a sound methodology which will provide a strong evidence base future planning policy.</p> <p>(ii) Raised concerns over the increased pressures on Ashridge Estate and minimal coverage that the estate gets in the report.</p> <p>(iii) 'Definitions of Open Space', to include Natural Green Infrastructure, as this is also mentioned later on in the document and is to be found in the Regional Spatial Strategy.</p> <p>(iv) Welcome the recommendation that a strategy is put in place to address areas of green space deficiency.</p>	<p>National Trust</p>	<p>The section of the report dealing with carrying capacity acknowledges these concerns. In addition we have represented Ashridge more prominently in the study.</p> <p>The study was based on PPG 17 and therefore utilised the open space typologies referred to in the PPG. Although 'Green Infrastructure' does not feature in this we are aware of its importance and are looking at ways into which we can build up a complete picture of green infrastructure in Dacorum.</p>
<p>(i) Chipperfield should be recorded as having a lack of public sports facilities.</p> <p>(ii) Welcomed the recommendation that existing leisure space should be protected.</p> <p>(iii) Noted that the children's playground at the rear of Boundary Cottages is in the Parish of Bovingdon not Chipperfield.</p>	<p>Chipperfield Parish Council</p>	<p>We have amended the document to reflect this.</p> <p>We acknowledge this and have made the amendments to the report.</p>

Summary of Comments	Respondent Name/No.	Our Response
<p>(i) Requested that the study include a synopsis of the role of the Trust and identify those parcels of land that are owned and managed by the Trust.</p> <p>(ii) Noted that the essence of PPG 17 is to respond to local need and appreciation of quality by the local community. It is not clear how this has been robustly addressed in this exercise.</p>	The Box Moor Trust	<p>We have included a synopsis of the Trust within the report that recognises the work that it undertakes.</p> <p>We have elaborated upon the work to establish local need within the borough. This will be further explored with the Green Space Strategy.</p>
<p>(i) The potential contribution of Rights of Way needs to be incorporated.</p> <p>(ii) The larger areas of common land (Berkhamsted Common / Ashridge / Ivinghoe complex) needs to be represented more prominently in the study.</p> <p>(iii) Report should cite the Sustainable Community Strategy (Jan 2008).</p>	Countryside Management Service	<p>Accessibility is being looked at in the rights of way improvement plan as part of the local transport plan. Will take this into account.</p> <p>We have incorporated this into the maps and have discussed the importance of the complex more prominently in the study.</p> <p>We have incorporated the recent Dacorum Partnership Plan.</p>
